Duties: Communicate with suppliers & manufacturers to obtain product specification and information regarding raw materials.

Analyse product data and collate information regarding quantities of raw materials used.

Build a summary report by product group.

Person Specification (Skills & Experience)

Good communicator

Researcher

Mathematical skills

Confident using email and telephone

Data analysis skills

Addition Information:

FRC are a social enterprise and supplier of contract and budget furniture as well as household items to social landlords and housing associations across the UK. We have a large product offering and would like to research further into our supply chain gaining knowledge of which raw materials we are trading in, and at what quantity.
