

Engage Partnership is a resident-led initiative that brings together leaseholders and residents from Liverpool Waterfront and City Centre apartments. Engage seeks solutions to our common problems, planning for the future and making Liverpool an even better place in which to live and work.

The 3 Talks Seminar Series aims to promote serious debate about city living so as to influence both policy makers and decisions with the reality and experience of those who live in the city. Love Liverpool - engage in the debate!

Engage was established by Liverpool City Council, the Federation of Liverpool Waterfront Residents Associations and Liverpool City Centre Leaseholders' Federation with support from Plus Dane Group.
