

Enterprise

School of Computing and Mathematical Sciences

Introduction

Liverpool John Moores University has a strong enterprise culture which is reflected in a broad range of industrial and community links – this feeds directly back into the University through student professional placements and academic research and consultancy. LJMU is a major partner in a number of high profile commercial initiatives which are promoting regeneration in Merseyside.

At LJMU, our forward thinking and enterprising culture means that we are committed to encouraging innovation and meeting the needs of business.

We combine the finest academic expertise with a market focus so that we can continually help you to meet the ever-changing demands of your industry. By ensuring that all of our services are designed with the customer in mind, your company can benefit from tailor-made business solutions that are, in many cases, totally unique to LJMU. We have the range of expertise, products, services and solutions that can give you the competitive edge.

The School of Computing and Mathematical Sciences

The School currently operates a number of full-time undergraduate degrees and postgraduate (taught Masters) degrees in the field of computing and related topics.

The School has over 50 members of staff and is currently home to around 1000 students including over 50 PhD students actively engaged on research projects.

Our Services

The School, via our dedicated Enterprise Unit, provides a number of services for local businesses and industry. These include:

- Year-long student placements
- Bespoke training courses
- Consultancy
- Knowledge Transfer Partnerships (KTP)
- Research and Technology Transfer

You can find further details on all these activities in our range of information leaflets available directly from us or downloadable via our website:
