

Best things at LJMU

It provides access to learning resources; it provides access to an incredibly knowledgeable and really willing staff, not only in the academic side of things, but also in all of the support services.

Everyone is learning everyone wants to be, the best in their subject almost you know, your all striving striving for that place, for when you leave university everyone going to be on your course, they are all going for the same kind of jobs. So if you want to be the best you can, you can be the best you can, and LJMU helps with that.

Liverpool John Moores University is very good because it gets involved with a lot of different campaigns and there are a lot of different activities and social groups that you can join and get involved in, which is very good thing at university.

It's at the cutting edge of research, as well as World of Work initiatives, and it provides that balance whether people want to go into full time employment straight after their degree, or if they want to go onto academic research.

Come to John Moores if you want to study, but also to have the skills that you need, not only as work as when you finish, because you get that skill, but also have that personal development as an individual and also have a great experience as well.

It's an amazing university; it's an amazing city, brilliant people.

There is so much going on; there is so much you can get involved with. And you can see a city grow.

And I would recommend it to people looking at university, or maybe looking at university and thinking, oh I can't do that it is going to be too hard and difficult; I say well I have done it with a child, and if I can do it anyone can.

It has got a lot of influence in Liverpool in the business community, so from that perspective I am very proud to be a graduate of LJMU. I would recommend John Moores to undergraduates looking, Liverpool is a fantastic place to be a student and John Moores is a great University to go too, it will set you up for life.

So far my learning experience at John Moores has been fantastic

I really love it here, I feel they value me as a student, and they are always there to help if ever I need it.

It's good. All of my studies at LJMU is good.
