

As you know, coronavirus continues to move at pace and like everybody else I am extremely concerned by this situation.

Our number one priority is you - we have put in place measures to help you to progress and complete your studies, where possible, through Canvas.

Clinical practice students have had a separate set of communications from the Faculty of Health and they will continue to keep you updated directly.

If you have any concerns, please email us at [IMT@ljmu.ac.uk](mailto:IMT@ljmu.ac.uk)

Your health, welfare and wellbeing are vitally important to us and I hope you all stay well and safe in the days ahead.

Thank you for your patience. Please look out for any further updates from the university in your LJMU inbox.
