

Faculty of Education, Health & Community

Dear Customer

As a valued customer of LJMU Sports facilities at IM Marsh, Liverpool John Moores University I would like to update you on the University's planning as some of the covid restrictions start to be lifted by the government. LJMU will welcome back students in September and like many other Universities it will be delivering blended learning. This will be a mixture of onsite and online teaching. Given the challenges of maintaining social distancing on campuses, and to maintain a safe working environment for staff and students, the University will be limiting the numbers of staff and students on site.

Although there have been changes to guidance on provision on both indoor and outdoor sports activities, the impact of social distancing measures, cleaning protocols and test and trace requirements mean that we will be unable to provide access for non LJMU user groups to any of our facilities (indoor and outdoor) at this time. The Strength and Conditioning studio will also remain closed to non-LJMU users during this time.

We appreciate that this will be disappointing for you and your group and we will continue to review our position as government guidance is updated. The next scheduled formal review of this decision is at the start of October 2020.
