

Seminar Room 5, Management School, University of Liverpool

Programme

Session 1 *Chair – Yvonne Allen*

1.30pm	Yvonne Allen	UoL	<i>Welcome and opening remarks</i>
1.30-2.30pm	Francis McGlone	LJMU	<i>The skin as a social organ: the neurobiology of pain and pleasure</i>
	John Quinn	UoL	<i>Differential gene expression and psychiatric disorders</i>
	Sophie Wuerger	UoL	<i>Understanding information processing in the human visual system</i>
	Andreas Goebel	UoL	<i>Investigations into the autoantibody-related aetiology of chronic pain</i>
	Peter Malinowski	LJMU	<i>Facilitating healthy cognitive ageing through mindfulness practice</i>
2.30-3.30pm	Martyn Bracewell	WCNN	<i>Novel techniques for non-invasive human brain stimulation</i>
	Andrej Stancak	UoL	<i>Brain imaging of chronic and experimental pain</i>
	Matt Field	UoL	<i>Effects of inhibition training on cognitive control</i>
	Anu Jacob	WCNN	<i>Neuromyelitis optica</i>
	Alan Morgan	UoL	<i>C. elegans as a model system for neuroscience research</i>

3.30-4.00pm **Tea/coffee**

Session 2 *Chair – Graeme Sills*

4.00-5.00pm	Tony Marson	UoL	<i>Epilepsy prognosis and treatment outcome</i>
	Rhiannon Corcoran	UoL	<i>Psychology and social neuroscience in mental health</i>
	Jerry Turnbull	UoL	<i>Heparan sulfates in neurodegeneration and neural cell transplantation</i>
	Susannah Walker	LJMU	<i>Monoaminergic modulation of social behaviour</i>
	Georg Meyer	UoL	<i>Understanding multisensory integration</i>
5.00-5.45pm	Gus Baker	UoL	<i>Clinical Neuropsychology at the Walton Centre: now and in the future</i>
	Adjanie Patabendige	UoL	<i>Viral brain infections</i>
	Joanne Powell	UoL	<i>Magnetic Resonance and Image Analysis Research Centre (MARIARC)</i>
	Graeme Sills	UoL	<i>Mechanisms and predictors of pharmacoresistance in epilepsy</i>
5.45-6.00pm	General discussion		

6.00-7.00pm **Reception**

The organisers are grateful to the North-West Epilepsy Group and the British Neuroscience Association for their generous support of this meeting.
