Thank you for joining us at our Postgraduate Open Day. We hope you have an interesting and inspiring experience and look forward to talking to you about your plans for the future.

There will be many staff and students on hand to offer help and advice throughout the event so, if you have any questions or queries, don’t hesitate to ask for help.

LJMU offers a supportive, flexible academic environment, well-structured postgraduate programmes, excellent research opportunities and access to extensive resources.

The University’s wide range of disciplines spans the arts, humanities, education, health, science and technology and all postgraduate programmes are delivered by academics actively involved in research or consultancy projects.

It is this combination of academic expertise and ‘real world’ experience that ensures LJMU courses prepare students for the world of work, enabling them to enjoy fulfilling and successful careers. Indeed, some 96%* of our postgraduates are in work or further study six months after graduation.
